

GRAND OPENING

Heritage Park Putting Green

The North Shore Heritage Park is welcoming its latest addition, the Putting Green. The addition of this unique landscape feature is going to make our park a unique experience not found at other parks. The putting green covers a 40 by 50 foot area with beautiful landscaping and a water feature. The green features 4 putting holes and a sand trap to provide optimum challenge for the avid golfer. It is located north of the playground area and viewable from Mount-Sinai Coram Road for all to see.

Jeffrey Ingrassia, Owner and President of Aqua FX located in Mount Sinai, designs and builds outdoor living spaces that beautifies homes and businesses. He has generously donated the supplies and labor for this exquisite project. Mr. Ingrassia has taken great pride and efforts into making this project a reality. Vincent Finnegan, a volunteer liaison for Heritage Trust coordinated efforts between the Town of Brookhaven and Mr. Ingrassia to ensure a seamless project. Additional supplies were donated by Bisset Nursery, Incord Roping, SubMarine Veterans and Delea Sod Farms.

Grand Opening celebration is on Saturday, November 19 at 11:00am-12:30pm at the Putting Green. Bring your putter and test the green out! ****The first 25 junior golfers will receive a free gift worth \$20.**
